YES!
YOU CAN TAKE IT WITH YOU!

In-vehicle entertainment no longer has to stay in-vehicle! Visteon's Dockable Family Entertainment System™ is a premium portable DVD player that you can detach from your vehicle and take with you. To the park, to the airport, to your own living room – wherever you want to be entertained! Then, when you want to hit the road, just "dock" it into the overhead docking station installed in the vehicle.

ONE PLAYER IS ALL YOU NEED.

Go from vehicle to vehicle. Install a docking system in more than one vehicle and the same player unit can be used in each of them.

FEATURES AND BENEFITS:

Original equipment quality engineering

Visteon's Dockable Family Entertainment System has a unique coupling system, which eliminates the need for awkward mounting straps or hardware. It allows the Portable Media Player to dock with one easy click. OE-quality means that it is designed and tested to stand up to the rigors of the open road.

Portable

For use in-vehicle, at home or on the go. The player unit with rechargeable battery functions virtually anywhere.

Economical

One Portable Media Player can be used in more than one vehicle. All that is required is installation of an overhead docking system in each vehicle.

Wireless Convenience

Infrared remote control and infrared headphones eliminate cumbersome wires.

Low-Profile Design

Slim components are perfect for overhead installation and give a clean look and feel, like it's made for the vehicle.

Improved Input/Output

Visteon's Dockable Family Entertainment System utilizes the vehicle's existing audio system for improved audio output and permits use of other portable players, game units and camcorders through auxiliary input jacks.

DOCKABLE FAMILY ENTERTAINMENT SYSTEM PACKAGE INCLUDES:

- **Portable Media Player** – Low-profile laptop style design complete with 10" flip-down display for DVD and CD playback.
- **Multimedia Capability** – DVD, CD, MP3 and WMA
- **Infrared Transmit/Receive Unit** – For remote control and wireless headphone
- **Wireless Headphone** – Infrared
- **Remote Control** – Infrared
- **Overhead Docking Station**
- **Auxiliary Jacks** – Input/output dual functionality

- Listing and search ahead capability by channel name, artist name, or song title

Applications	Part#
Sirius Mini PNP Receiver	AUDSIRPNP3

MAGELLAN

Now, you can own a GPS with advanced vehicle navigation and outdoor GPS routing capabilities in the world's first pocket-sized CrossoverGPSTM. Simple touch-screen menus make it easy to select virtually any destination and get turn-by-turn voice and visual guidance while on the road. Or you can take it on your Saturday hike, mark waypoints along the way and save the route to go again next weekend. Detailed built-in street maps of North America and light topographic maps of the 48 contiguous United States mean you'll never be lost.

Add optional detailed regional MapSend® Topo1 topographic maps, MapSend BlueNavTM marine charts or MapSend Lakes charts via Secure Digital memory cards and navigate your outdoor adventures. The best-in-class battery offers up to 8 hours of use so you can navigate, search points of interest, plan trips, listen to music and view pictures from wherever you are.

Advanced auto navigation features include multi-destination routing, SmartDetourTM to route you around slow freeway traffic and SayWhereTM text-to-speech, which tells you both where to turn and the name of the street to turn on. The optional TrafficKit2 accessory makes it easy to avoid traffic with Real-time incident reports. (Subscription required for traffic reports only). ***#MAG980890-01A***

JENSEN®

Safer than trying to read maps while you drive, and much more comfortable than being unsure of where you are and how to get where you want to go, the Jensen NVX227 3.5-Inch touch-screen Portable Navigation vehicle navigator helps you get where you are going in the quickest, most convenient way possible.

The Jensen NVX227 utilizes a crystal-clear, brilliant full-color, 3.5-inch touch-screen display to show you at a glance where you are, and where you need to go. This unit provides you with turn-by-turn voice prompts, in selectable female and male voices, that let you know in advance where you need to turn without you having to ever take your eyes off the road. The NVX227 features route calculation based on user-input preferences, with automatic re-routing when you deviate from your planned route, whether it is by accident, or by choice. This navigator also features over three-million POIs (Points of Interest) so you can easily find what you need wherever you are at, as well as displaying your estimated time of arrival, distance left to travel, time left to go, and miles per hour, all of which is calculated automatically. ***#AUDNVX227***

EVOLUTION® - NUMBER ONE IN PROTECTION FOR 25-YEARS

You should demand high-performance protection for your high-performance ride! For 25-years Evolution® fabric covers have been Covercraft's best selling material, with over a million covers on the road! EVOLUTION®, is an all-weather fabric manufactured in the USA by Kimberly-Clark, and is the best for UV resistance, while also providing excellent water and dust protection. In fact, it's the most popular of all of Covercraft's all-weather fabrics. Covercraft manufactures custom fit EVOLUTION® covers for cars, trucks, SUV's and more, because this material also provides extra protection against dings and dents!

EVOLUTION® is constructed with four layers; a strong top layer which protects against weather, bird droppings, tree sap and other airborne pollutants. The two middle layers act as a filtration barrier against dust and dirt and the bottom layer is soft, absorbing mild impacts to help protect the finish from nicks, dings and scratches. The material breathes allowing moisture trapped under the cover to escape. EVOLUTION® covers are available in blue, gray and tan.

DELUXE MULTI-LAYER VEHICLE PROTECTION FROM COVERCRAFT INDUSTRIES

Block-It® 380 is Covercraft's latest general protection fabric, available for most cars, pickups, SUV's, Vans and Wagons. Custom and Ready Fit® Block-It® 380 covers feature an inner film barrier that provides an excellent balance of water resistance, breathability and softness. Each cover includes reinforced non-scratch tie-down grommets, Neoprene elastic in the front and rear hem for a snug fit and all the seams are double-stitched and overlapped for strength.

Made in the USA by Kimberly-Clark, Block-It® 380 fabric is naturally moisture resistant to acid rain, industrial pollutants, tree sap and bird droppings. Air circulates easily through the fabric to help it dry quickly and reduce heat buildup. Three layer construction provides your vehicle with excellent out-door protection, and the material carries a 3-year warranty when used under normal conditions. Block-It® 380 will not shrink or stretch and will retain its tailored shape.

PROTECT YOUR UPHOLSTRY WITH SeatSavers® FROM COVERCRAFT

Your seats are exposed to all the worst kind of abuse. UV rays, dirt, mud, wet clothing, animals and kids all contribute to their destruction. **SeatSavers®** from Covercraft Industries are custom fitted to your vehicle's seats and provide the ultimate in protection. Easy to install and remove, these **SeatSavers®** protect front seats, as well as 2nd and 3rd row seats. When dirty, wash and dry at home. **SeatSavers®** are available for bucket seats or multiple bench seats in your truck or SUV, plus they include cutouts provided for seat adjustment knobs, seat belts, etc.

SeatSavers® are fabricated from heavy-duty polycotton fabric which allows you and your seats to breathe, eliminating that tacky, sticky feeling that vinyl or neoprene type seat covers can cause while driving. Their quality construction features overlapped and double-stitched seams for durability, and the material is treated with a water repellency finish that blocks liquid from reaching your seats. They are available in Navy Blue, Charcoal, Misty Gray, Gray, Wet Sand, Tan and Taupe. For the ultimate in seat protection install **SeatSavers®**. Best of all they are easy to install and remove – that means whenever they get soiled just pull them off and throw them in a home washer and dryer!
